MOVE ON LIAO YANG

The Japanese Are Preparing to Make a Desperate Attack on That Place.

BIG SIEGE GUNS HAVE BEEN SENT.

Ten Thousand Wooden Boxes in Which the Killed Are to Be Placed and Cremated Delivered.

The Japs, Contrary to Expectations, Are Beginning to Advance Along the Whole Line of the Russian Eastern Front.

Liao Yang, Aug. 27.—According to the best information obtainable the Japanese are preparing for a desperate attack on Liao Yang, in which, the Chinese say, they are confident of success. Siege guns have been sent from Yin Kow to Tatchekalo, intended for use against Gen. Kuropatkin's positions.

A curious indication at these positions of the methodical preparation for a big battle is the fact that 10,000 wooden boxes in which it is intended to place the killed who are to be cremated on the battlefield have been delivered in the neighborhood of Liao Yang and that 800 Chinese have been engaged to burn the bodies of those who may be killed.

The present disposition of the Japanese forces is as follows:

Gen. Kuroki with 100,000 men is between Khoyan and Shan Gutzlatzy; Gen. Nodzu with 60,000 is on the line between Simoucheng and Khallin, and Gen. Oku, whose force has been greatly depleted by withdrawals for the Port Arthur siege, is at Hancheng.

Kantzonten (Seven Miles Southeast of Liao Yang), Aug. 27.—Contrary to the expectations of the Russians the Japanese are beginning to advance along the whole line of the Russian eastern front. On the morning of August 24 there was a rifle skirmish and the next day the Japanese artillery opened fire. On both days the firing ceased at dusk and the small energy displayed by the Japanese might have been taken to indicate that it was merely a demonstration or a reconnaissance in force. On the morning of the 26th, however, the rifle and artillery fire was renewed with an energy that left no doubt that a severe battle was intended.

The Japanese pushed their attack against the Russian right flank and center, concentrating their fire upon the first battery of the third brigade. Three officers and several men were wounded early in the day, but the battery held its position and replied to the Japanese fire with such marked effect that Gen. Ivanoff (who commands the late Gen. Count Keller's corps), sent a congratulatory message to its commander.

The Japanese several times attempted to cross the Tanklefo (Lian river), but only a few succeeded and they were forced to hide in the fields of Chinese corn.

At 2 o'clock in the afternoon the artillery fire became as hot as it was at Vafangow, but it fluctuated considerably and occasionally the Russian fire almost silenced that of the Japanese. Rain fell in torrents at 4 o'clock but it did not stop the fighting and late in the evening several Russian companies moved forward to the attack.

It is not yet possible to state definitely the result of the battle, but it is claimed that the Russians were successful.

DISTURBING THE PEACE.

Four Prominent Young Men Arrested in St. Louis.

St. Louis, Aug. 27.—Paul Harper, 15, son of Dr. W. R. Harper, president of the Chicago university, and three friends, Fred Taylor, 17, son of a New York broker, and Fred Gates, 17, and Frank Gates, 15, sons of Frederick G. Gates, business manager for John D. Rockefeller, were arrested at the World's fair Friday on charges of disturbing the peace and destroying property. The Jefferson guards who made the arrests claim that the boys broke down a side door at the Moorish palace on the Pike. The boys declare that they became lost in the mazes of the exhibit and pushed through a door in order to get out.

SURRENDERS TO THE SHERIFF.

He Was Indicted For Murder Several Years Ago.

Winchester, Ky., Aug. 27.—Moses Feltner, under indictment for killing Jessie Fields in Breathitt county some years ago, arrived here Friday evening and surrendered to Sheriff McCord. He gave bond and was released.

When the indictment was found Feltner employed the late J. B. Marcum to defend him, and gave bond in the sum of \$5,000 for his appearance, but owing to Marcum's enforced absence from Breathitt county, he did not return for trial and his bond was forfeited. A reward of \$500 was offered for his apprehension, but not until Friday did his whereabouts become known.

Shortly before Marcum was assassinated in Jackson, Feltner published an affidavit to the effect that he, with others, had been employed by certain men in Breathitt county to kill Marcum. Feltner will be a witness for the plaintiff in the suit of Mrs. J. B. Marcum against Judge James Hargis, Alex. Hargis, F. F. French and Ed Callahan for \$100,000 damages for alleged conspiracy to kill her husband, which is set for hearing at the September term of the Clark circuit court. Feltner declines to make a statement, only saying that he has been out west.

THE SECOND ROUND

Jack Monroe, of Butte, Mont., Went Down and Out Before James J. Jeffries.

WAS ROUNDLY HOOTED BY CROWD

The Winner in the First Round Had Him Twice on the Canvass Taking the Count.

The Fight Showed That the World Has Yet to Produce a Man Who Will Displace Jeffries as the Champion.

San Francisco, Aug. 27.—Like the veriest amateur in the prize ring, Jack Monroe, of Butte, Mont., went down and out before Champion James J. Jeffries Friday night in the second round. The man from the mining district made such an extremely sorry showing that the great throng in Mechanics Pavilion roundly hooted him as he protested to Referee Graney against the decision that had been given in favor of Jeffries.

The two giants had not been in the ring two minutes when it was foreseen that the aspirations of Monroe would be quickly disposed of. The miner was scared and awkward and Jeffries in the first round had him twice on the canvass taking the count.

Jeffries directed his bombardment against the stomach of his opponent and each shot was followed by a blow on the jaw that sent Monroe to his knees. Jeffries went back to his corner after the opening round with a sneer and a laugh on his swarthy face while Monroe's seconds busied themselves with smelling salts and restoratives. When the two came together for the second round the laugh on the champion's visage changed to a look of determination that boded ill to the miner.

Forty-five seconds after the gong sounded Monroe was lying on the floor, a bloody, bruised mass of humanity, with Jeffries standing over him, ready if necessary to put the quietus on the championship ambitions of his adversary. The miner was too dazed to rise to his feet and the time-keepers counted him out, but the husky man from Southern California did not understand that the victory was already his, nor did Monroe realize that his pugilistic star had so early set, and the two men, in a moment or two, facing one another and Jeffries landed a terrific blow on the jaw of his staggering opponent. It was this time that Graney came forward and ordered Jeffries away, telling him that the fight was ended in his favor.

Monroe tottered to his corner with blood streaming from his face and fell into his chair dazed and helpless. His seconds immediately began working on him to freshen him and when he came to a realization that the fight had gone against him he arose and, going over to Referee Graney, began to protest. The huge crowd understood that from his protesting gesticulations, etc., the purport of his talk to Graney, and a mighty volume of jeering and hissing evidenced the sentiment of the spectators, many of whom had placed money on the miner that he would stay at least double the number of rounds before the champion. From the time the bell rang for the commencement of the battle to the time that the count of ten had been uttered against Monroe, only four minutes and 45 seconds had elapsed. The fight demonstrated, if nothing else, that the world has yet to produce a pugilist who will displace James J. Jeffries as champion of the world.

A great throng witnessed the contest. Estimates of the number in attendance range from 7,000 to 8,000, and it is believed that the gate receipts will approximate \$35,000.

The miner's showing was a disappointment to those who had the confidence that he would at least repeat in some degree his performance in Butte, when Jeffries failed to put him out in four rounds. In the first few moments of the opening round he made some show of aggressiveness, but that he was thoroughly scared was evident from the manner in which he broke ground and awkwardly endeavored to guard himself when Jeffries advanced toward him.

Jeffries did not extend himself at any time of the short contest, nor did he deliver a blow that required the full strength of his powerful arm. The shots that sent the miner down were of the short arm variety that found easy lodgment on the jaw of the man from Butte, but there must have been terrific impact behind them which was shown by the way the 200 pounds of flesh went down with a thud on the canvass.

FOR MOVING THE CROPS.

The Shipment of Currency Has Begun Rather Vigorously.

Washington, Aug. 27.—"The shipment of currency for moving the crops has begun rather vigorously," said Treasurer Roberts Friday afternoon. "We have sent already this week to New Orleans against deposits in New York \$521,000 and to Chicago against deposits in New York \$1,500,000. In comparison with last year it will be seen that the New Orleans movement is much above the same and that the Chicago movement much more active. The total payments in Chicago last year from January to September 1, against deposits in New York, were \$1,200,000. We have already sent in that period this year, including this week's movement, \$1,800,000 and it is possible that more may go between now and the 31st of August. There has been a total to New Orleans since January 1 of \$4,011,000. The amount last year for the period up to the close of August was \$4,119,000."

THE TURBINE.

Board of Naval Engineers Experts Completed An Examination of It.

Washington, Aug. 27.—A board of naval engineering experts has just completed a thorough examination of the Turbina, one of the latest developments in the use of the steam turbine as applied to vessels. The results of the inspection will be made known in detail in a report on the whole subject of turbine power which the board will prepare, but meanwhile it may be stated that the performance of the turbine was regarded as highly satisfactory. There was a complete absence of vibration, a most important consideration in gun pointing and in the comfort of the crew. Furthermore, almost no repairs are necessary to the engines, there being no friction except in a few bearings. There is no pounding and thudding of engines, nothing but a soft rush of steam through the pipes, so that noise is suppressed, another valuable consideration in naval combats.

OCEAN METEOROLOGY.

The Control of It Transferred to the Weather Bureau.

Washington, Aug. 27.—By the transfer as recommended by the government wireless telegraph board of the control of ocean meteorology through wireless telegraphy from the hydrographic office of the navy to the weather bureau, announcement of which was made Friday, it is expected to secure a more thorough forecast relating to storms approaching from the seas.

In commenting on the transfer Prof. Willis Moore, chief of the weather bureau, said the result would be an uninterrupted wireless communication with all classes of vessels, whether merchant marine or battleships, when within 500 miles of either the Pacific or the Atlantic coasts.

A CARNEGIE MEDAL.

Miss Gertrude Sawyer May Wear One For Her Bravery.

Marquette, Wis., Aug. 27.—Miss Gertrude Sawyer may wear a Carnegie medal for her bravery in piloting her party of children across Green bay in rowboat on Thursday during a heavy sea, when the waves were 20 and 30 feet high, and all steamers remained in port. It was her courage and nerve that saved the lives of the entire party, as she remained at the oars until her hands were raw, taking charge of the boat and keeping up the spirit of all by assuming a light heartedness she did not feel. Her friends will send a full account of her exploit to the trustee of the Carnegie fund and ask that she be granted the highest honor.

THE EFFORT FAILED

An Unsuccessful Attempt to Settle the Stockyards Strike by Aldermanic Committee.

PACKERS WILL NOT ARBITRATE.

They Claim That They Are Now Turning Out 92 Per Cent of Their Normal Output.

Labor Leaders Announce That the Strike Will Be Settled Wednesday, But Say the Strike Will Not Be Called Off.

Chicago, Aug. 27.—The conferences of the committee appointed earlier in the week to attempt a settlement of the stockyards strike, with the parties to the dispute resulted in nothing. There is no present prospect that they will result in anything in the future, and the chances of an agreement between the packers and the strikers appear very meager. The strike leaders appeared before the committee Friday morning and stated their side of the case. They did not suggest to the aldermanic committee that it make any overtures to the packers, but simply gave their side of the case.

The representatives of the packers then appeared before the committee and after a session that lasted three hours Mayor Harrison said: "The packers have said just what they said before—that they are running their plants and have nothing to arbitrate, and that there is no reason why they should confer with the men."

"Then it is all off?"

"That is about what it amounts to."

"We heard a review of the entire strike trouble," continued the mayor, "and the packers say that in every community except Chicago and Omaha the strike is practically over, and they claim that with 75 per cent. of the men that they employed in Chicago before the strike they are now turning out 92 per cent. of their normal output."

The labor leaders Friday night announced that in all probability the strike would be "settled peaceably" before Wednesday of next week. They declined to explain the cause of their belief, but were positive in their statements that the strike would not be called off. President Donnelly, of the Butchers' union, has called all the members of the butchers' executive board to meet in this city next Wednesday.

A stone building in the rear was demolished and windows were shattered in all directions. There is no clue to the perpetrators.

AGAINST ROOSEVELT.

They are coming our way over in New York. General E. A. McAlpin, a life-long Republican and for many years one of the prominent officials of the Republican State organization of New York, has informed his friends that he will not support Roosevelt for President. The announcement was made by General McAlpin when he was asked to assume the leadership of the Twenty-seventh Assembly district. "I am sorry, gentlemen," General McAlpin told the committee that waited on him, "but I cannot accept your offer. I have been a Republican all my life, but I cannot support Roosevelt for President." The General is a member of the Union League and was formerly Treasurer of the Republican State Committee, and Adjutant-General of the State of New York under Governor Black, who presented Roosevelt's name to the Chicago convention. Theodore Cox of New York, President of the New York State League of Republican clubs in 1900 and 1902, President of the Republican College League in 1894 and 1895 and candidate for Congress in 1900 from the Ninth district, has also announced his change of political faith in an open letter, in which he condemns President Roosevelt for his disregard of constitutional limitations. "As to Mr. Parker," Mr. Cox goes on to explain in his letter, "all I can say is that his career shows that he is not a poser in any line who, while claiming no virtues above those of the majority of his fellow citizens, has filled his place with unassuming honor and credit. Moreover, his "gold" telegram shows strength of character of a high order, and his speech of acceptance reveals a safe and sane man, who appreciates the responsibility of his position and who, if elected, will give the country an administration whose purpose will be a continuance of the steady growth that has gradually and surely, and not by any firecracker war in Cuba, brought this country to its present position."

MT. OLIVET, Aug. 26th.—Two thousand or more persons lined the streets of Mt. Olivet yesterday when the troops arrived at 12 o'clock escorting Sheriff's Vanhook and Duncan and their prisoner, Maybrier, the murderer.

At 1 o'clock court was convened by Judge Fryer, a venire of seventy-five men having been summoned from which to select a jury. Nearly forty were examined before this was accomplished and the examination of witnesses begun. Four witnesses for the commonwealth and Maybrier's own testimony constituted all the proof taken. Maybrier's tale was at complete variance with all the rest, as no corroborating testimony gave the semblance of truth to what he told. Commonwealth's Attorney Dedman and County Attorney Osborne assisted by Judge J. J. Osborne of Cincinnati and Samuel Holmes had charge of the prosecution, while Robert Buckler conducted the defense. Only two speeches, that of Robert Buckler and Judge Osborne, were made and the case went to the jury about 7 o'clock, who after being out a little more than an hour, rendered a verdict of guilty and fixed his punishment at imprisonment in the penitentiary for life.

IT'S FOOLISH

To Ignore Such Convincing Proof as This Maysville Citizen Gives You Here.

You may differ from your neighbors in many important questions of the day. Your opinions may coincide with those of the minority or of those of the majority and still you may be in doubt. But you can hardly be skeptical about the merit of Doan's Kidney Pills when you read such emphatic local endorsement as the following:

Mrs. J. B. Gibson of 113 West Fourth street says: "The value of Doan's Kidney Pills is quickly made manifest by their use. I obtained them at J. Jas. Wood & Son's drugstore, corner of West Second and Market streets, and although my experience was not extensive, it was because their curative powers were so quickly demonstrated that extended use was unnecessary. The quick relief from backache which was obtained from the use of Doan's Kidney Pills caused me to recommend this valuable medicine whenever opportunity offers."

The greatest crop of tobacco grown in Montgomery County in ten years is now being housed, and farmers are elated over the prospects. A man who has been in the business for years stated that nothing like the present crop has ever been seen in Montgomery County. Growers believe that the yield will average 1,500 pounds and they are counting on not less than 10 cents a pound for the crop. Montgomery has been blessed with fine rains all through the season.

THE SEWER BONDS.

Announcement Made That They Were Not Legally Authorized—Another Vote Will Be Taken—Work, However, to Proceed.

The issue and sale of the \$12,000 sewer bonds recently voted by the people of Maysville has been held up temporarily, on the ground that the vote on creating such an indebtedness can be taken only at a regular election. The provisions of the law on the subject are plain, but Council's attention was not called to it until after the bonds were ordered printed. The only way out of the dilemma is to take another vote at the regular election in November, and City Attorney Wood is preparing an ordinance to that effect.

However, work on the sewer will probably not be greatly delayed. The city has \$7,000 worth of emergency bonds which are available, and council will probably order these sold to provide funds to begin the work.

Epworth League at 6:45. Sunday school at 9:30. You are welcome.

Sunday closes the year's pastorate of Rev. H. E. Roseberry at the Second M. E. Church, South. Subjects, morning, "The Motives in the Christian Service." Evening, "Retrospection: The Year's Work." A full attendance is requested at both services.

AN IRISH PHILOSOPHER

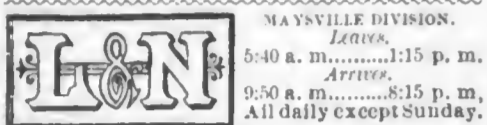

Says "the sweetest memories of life are the recollections of things forgotten." How many remember the Union Agricultural Society's first fair at Germantown in '54—who can recall the interesting incidents that must have featured the earliest meeting? Most of the good things accomplished during the fair's half century of existence will be rehearsed at the Golden Jubilee gathering this week. Go out, join in the enthusiasm and help swell the crowd. Aside from the interesting agricultural exhibits you will enjoy the social features, of which "The Old Reliable" is noted. Renew the acquaintances of your youth; talk it all over again, and speak a good word for The Frank Owens Hardware Company.
